

YDreams Med Inaugurates Office Headquarters in Barcelona's Swanky El Born District

YDreams Med will officially inaugurate its Barcelona office and showroom on Thursday, March 22nd. The Portuguese Ambassador, H.E.Mr. José Morães Cabral, dignitaries from the Catalan government, company directors and YDreams' founders and top management will attend the inauguration. The event will give YDreams Med an opportunity to showcase some of the company's technological solutions and treat their guests to cocktails and live music.

The Spanish hub, thought out and designed for exhibiting YDreams' frontline solutions and welcoming clients from all over Spain, Latin America and the Mediterranean basin, is located in the trendy, up & coming El Born district. The premises, originally a warehouse used for storing and supplying fruit to the nearby market, dates from the early 1900's. The building has been totally revamped but great care has been taken to maintain its original charm and architectural style. The Catalan office & showroom is now officially open for business and symbolizes YDreams' drive to continue their international expansion.
